Did you know...

With a land area of only 4,000,000 square miles, Europe is the second smallest continent in the world, just behind Australia.

Europe was the main location of several historical periods that made a huge impact on the world like the Renaissance and the Industrial Revolution.

There are more than 250 distinct languages spoken in Europe!

Teachers:

Please be sure to hand out passports your students prior to their lunchtime period. They will be able to collect stamps from the different European countries they visit!
