Did you know...

The Middle East sits in Western Asia, bordered by the Mediterranean Sea. The climate is hot and dry.

This region is an ancient one, and people have been living here for thousands of years. Many of the world's religions began here; including Islam, Christianity and Judaism.

Saudi Arabia doesn't have ANY rivers!

Teachers:

Please be sure to remind students to bring their passports to lunch so they can collect stamps from the different Middle Eastern countries they visit!
