Did you know...

The continent of Asia has a population of more than 4 billion, yes that's billion!

The land area of Asia equals 45,036,490 square kilometres (17,388,690 square miles)

In Asia there are hundreds of languages spoken! For example, India alone has 30 official languages and Indonesia has 12, with many more spoken amongst families at home. English, Arabic and Mandarin Chinese are the most common.

Teachers:

Please be sure to
remind students to
bring their
passports to lunch
so they can collect
stamps from the
different Asian
countries they visit!
